## **Onboarding Process**

#### FTP / Web Services Integration Onboarding steps

- 1. Initiate the onboarding process by emailing your request and SanMar Customer Number to <u>sanmarintegrations@sanmar.com</u>.
- 2. SanMar will send you an integration agreement for e-signature along with the integration documentation. Currently SanMar does not charge for integration access; however, we do require the company Owner or other Authorized Signatory to sign our Integration Agreement.
- 3. Once SanMar receives the signed agreement, onboarding for FTP and/or Web Services access should be completed within 1-2 business days. Upon completion, SanMar will send an email with access instructions, best practices, and a secure link to your FTP credentials.

#### Please note:

- Your FTP credentials are different from the Web Services credentials. After onboarding is complete, your SanMar.com username and password will work to authenticate production PromoStandards and SanMar Web Service APIs.

#### Purchase Order Integration Onboarding steps

- 1. Once your account has been onboarded for FTP and/or Web Services access and you have verified your access to SanMar product data, you may request Purchase Order integration.
- Upon receiving a PO integration request, SanMar will set up a test account for you in our Edev environment within 2-3 business days. SanMar will provide a secure one-time access link to retrieve your Web Services user credentials for the Edev environment.
- 3. SanMar requires testing on Edev to be completed using an address you intend to use in production and for you to submit an order with multiple lines. Additional testing may be required if you plan to ship using the PSST ship-via or based on your account. Refer to our PO Integration guide for details.
- 4. Once you have submitted a test PO, please send an email with your PO number to the SanMar Integration Support team (sanmarintegrations@sanmar.com). SanMar will review the order files and provide further guidance as needed.
- 5. Once testing has completed on Edev, SanMar will request the username, shipping information, and payment method for the integrated PO configuration in production. Once those have been supplied, SanMar will configure your production account for integrated PO processing within 1-2 business days.

The above timelines may extend depending on the complexity of your situation and testing needs.

## **Product Information Overview**

While using our product information we require that your database is updated regularly to reflect any changes that affect our available stock and pricing throughout the year as well as product evolution such as: Coming Soon, New, Regular, Active and Discontinued product statuses.

You can either use the SanMar Data Library or request access to our FTP server for additional data with inventory such as the SanMar\_EPDD.csv file (bulk inventory) or the sanmar\_dip.txt file (inventory by warehouse). If you are using our inventory and/or sale pricing information, we recommend daily or *weekly* updates otherwise, monthly to quarterly updating is recommended. Please note that our entire catalog is updated annually at the end of every July and there are additional product releases in January, March and May, which also include discontinued product changes.

In order to create the functionality you desire, you may need to use a combination of our data files or web services data. All our files contain our inventory\_key and size index or unique\_key (which is created by the inventory\_key and size index appended to the end). This is our unique identifying number for each style, color and size combination for every product that SanMar sells and matches to the unique\_key field in our product information files. This unique identifying number may require mapping data from different files with the unique\_key or inventory\_key and size index to create the relationship to the additional product information. We also recommend downloading our product images and linking to them on your local server.

#### How to open .txt files in Excel

You will need have excel already open, then browse and select the txt file you would like to open.

Once it opens, it will give delimiter options, select Delimited then click Next. In the next window, select 'other' and enter a pipe "|" (Shift + \ Key), then click Finish. Once the file is opened you can save it as an XLS or CSV file.

## **Brand Restrictions**

The following brands are prohibited from being sold without embellishment on any third party or direct to consumer website, including Amazon, eBay, and Craigslist:

Brooks Brothers	Eddie Bauer	OGIO	Tommy Bahama
Carhartt	New Era	The North Face	TravisMathew
Cotopaxi	Nike		

#### **Map Pricing**

All customers must adhere to our Minimum Advertised Pricing (MAP) policy. Per our sales policy, customers may not advertise or promote products at discounts greater than 10% off MSRP or SanMar promotional pricing for retail items or 20% for our private label brands. Customers may not advertise any discount on bags by OGIO.

MAP = 10% OFF MSRP		MAP = 20% OFF MSRP	MAP = MSRP	No MAP
Alternative Apparel	Outdoor Research	AllMade	Carhartt	Anvil
Brooks Brothers	Red House	CornerStone	Nike Bags	Bella+Canvas
Bulwark	Red Kap	District	Tommy Bahama	Comfort Colors
Champion	Russell Outdoors	Mercer+Mettle		Fruit of the Loom
Cotopaxi	Spacecraft	Port & Company		Gildan
Eddie Bauer	tentree	Port Authority		Hanes
New Era	The North Face	Sport-Tek		Jerzees
Nike	Travis Mathew	Volunteer Knitwear		Next Level
OGIO	Wink			Rabbit Skins

#### Global Trade Item Numbers (GTIN)

GTIN's for the following brands are available in the **SanMar\_SDL\_N.csv and SanMar\_EPDD.csv** files on our FTP server:

Allmade	Champion	Hanes	Port Authority	tentree
Alternative	Comfort Colors	Jerzees	Precious Cargo	The North Face
American Apparel	Cornerstone	Mercer+Mettle	Rabbit Skins	Tommy Bahama
Anvil	Cotopaxi	Next Level	Red House	TravisMathew
Bella+Canvas	District	Nike	Red Kap	Volunteer Knitwear
Brooks Brothers	Eddie Bauer	Ogio	Russel Outdoors	Wink
Bulwark	Fruit of the Loom	Outdoor Research	Spacecraft	
Carhartt	Gildan	Port & Co	Sport-tek	

#### Hemmed Pants

SanMar does not provide integrated data or support integrated PO submittal for hemmed pants due to additional sourcing and processing fees. Hemmed pants can be ordered via our other ordering channels (SanMar.com / Phone / Email). Unhemmed pants are part of integrated data-feeds and are supported for integrated PO submittal.

## The SanMar Data Library - Product Information and Images

The data library on sanmar.com contains our product data and is customizable to meet your individual product needs. If you are interested in inventory data, please contact us. Here is the link to the data Library: https://www.sanmar.com/resources/electronicintegration/sanmardatalibrary

The SanMar Data Library includes the following:

- ✤ Style numbers & Colors Names
- + Product Descriptions, Categories & Product Weight in lbs.
- ✤ Piece, Dozens, Case, MSRP & MAP Pricing
- Product SKUs for each style, color & size combination

#### **Data Library Images Folders**

- Color Product Image (Front model) medium-resolution (1200 X 1800, 300 DPI) images and image URLs
- Thumbnails, Color Squares & Brand Logos
- ✤ Spec Sheets & Product Measurements

#### SanMar Data Library File Names

Based on preferences selected when downloading the data SanMar\_SDL\_DS.zip

do not check any option

SanMar\_SDL\_DSI.zip - do not check any option but Include Images

SanMar\_SDL\_S.zip - Do not include Duplicates.

SanMar\_SDL\_SI.zip - Include Images & Do not include Duplicates

SanMar\_SDL\_D.zip - Do not include trademark or registered symbols

SanMar\_SDL\_DI.zip - Include images & do not include trademark or registered symbols

SanMar\_SDL\_N.zip - Do Not Include Duplicates & Do not include trademark or registered symbols

SanMar\_SDL\_I.zip - Include Images, do not Include Duplicates & Do not include trademark or registered symbols

## SanMar FTP Server Data

For FTP access contact SanMar Integrations at sanmarintegrations@sanmar.com or call 206-727-6458 and we will send you our integration agreement, which must be digitally signed by the owner or manager of the company and returned.

#### **FTP Daily Product Data**

- Product SKUs, Style numbers, Colors, Descriptions, Categories & Weights in lbs.
- Bulk Inventory & Inventory by warehouse
- Piece, Dozens, Case, MSRP & MAP Pricing
- ✦ Shopify Web Store File

#### **Optional Daily Files**

These are files that can be configured upon request.

- ✦ Daily Pricing CSV File +
- ✦ Daily Invoice Txt File
- Daily Order Status Text File
  - + Daily Invoice Excel File

- **FTP Images Folders**
- + **Product Images** Front & Back Model, Front & Back Flat Images
- + Thumbnails, Color Squares & Brand Logos
- + **PDF Spec Sheets & Product Measurements**

EDI Standard 810 Invoice File Version: ANSI X1200401

## FTP (File Transfer Protocol) Client Information

An FTP client is software which uses the File Transfer Protocol (FTP) to upload or download files on our server. Here is the link to download an FTP Client of your choice. https://tinyurl.com/FTP-clients

+

FileZilla Download & Settings FileZilla is a popular FTP client that is used by many of our customers and needs some of the default settings changed to connect to our FTP server.

Download FileZilla https://filezilla-project.org/download.php?type=client

Go to File -> Site Manager then Click on 'New Site' Host: ftp.sanmar.com PORT: 2200 Protocol: SFTP – SSH File Transfer Protocol The FTP server is not compatible with TLS protocol **Transport Layer Security** 

Logon Type: Normal User: (Your Customer Number) Password: (FTP Password) Your sanmar.com username and password will NOT work on our FTP server.

#### **FTP Daily Product Information Files**

The following data files are in the SanMarPDD FTP folder and are updated nightly and are completed by 6am PST. Our main product information files are the SanMar\_SDL\_N and the SanMar\_EPDD csv files. Both files have all the basic product data including product descriptions, pricing, and item weight in lbs. The SanMar\_EPDD file has bulk inventory, separate main category and subcategory data as well as front model, back model, front flat and back flat image names that match the images names in the EPDD.zip images folders. There are duplicated unique keys in the SanMar\_EPDD file due to multiple main category and subcategories.

Please Note: Product data with a "Coming Soon" Product Status may be incomplete until the Product Status is updated to "New" and available for purchase.

## SanMar SDL N.csv & SanMar SDL DI.csv - Comma delimited quote encapsulated files

FIELD ELEMENT	DESCRIPTION
UNIQUE_KEY	Unique Identifier created as combination of INVENTORY_KEY & SIZE_INDEX
PRODUCT_TITLE	Includes Manufacturer's name
PRODUCT_DESCRIPTION	Description of product features
STYLE#	Mill style # same as style number used in catalogs
AVAILABLE_SIZES	Sizes available
BRAND_LOGO_IMAGE	File name of Brand image such as Port Authority
THUMBNAIL_IMAGE	File name of Small image for Lifestyle-Model picture
COLOR_SWATCH_IMAGE	Individual color Image available in a style.
PRODUCT_IMAGE	File name of Lifestyle-Model picture jpg for web sites
SPEC_SHEET	PDF or Word document listing specifications.
PRICE_TEXT	How price applies such as Price applies to
SUGGESTED_PRICE	Recommended retail
CATEGORY_NAME	Major categories such as Tee Shirts, Knit Shirts, Woven
SUBCATEGORY_NAME	Such as 100% Cotton Tee or Crewneck Sweatshirts or Camp Shirts
COLOR_NAME	Full Name of color
COLOR_SQUARE_IMAGE	File name of Image which creates the square in a color swatch.
COLOR_PRODUCT_IMAGE	File name of Regular (usually folded) image
COLOR_PRODUCT_IMAGE_THUMBNAIL	File name of Small picture of (usually folded) items
SIZE	Size of item
PIECE_WEIGHT	Approximate Weight Per Piece – Ibs. /piece – Final weight determined at shipping.
PIECE_PRICE	Price Per Piece based upon a purchase of 5 pieces or less of a single style & Color
DOZENS_PRICE	No longer Available - Displays Price Per Piece
CASE_PRICE	Price per piece based upon Case Purchase by Size / Color / Style
PRICE_GROUP	No longer Available - Displays NA
CASE_SIZE	Total # of pieces of a single style /color/ size per case
INVENTORY_KEY	SanMar Proprietary Inventory Key   Used for text file order submission
SIZE_INDEX	Size category number for each size grouping   Used for text file order submission
SANMAR_MAINFRAME_COLOR	Abbreviated color name   Used for web services order submission
MILL	Brand Name of Manufacturer
PRODUCT_STATUS	Displays Coming Soon, New, Regular and Discontinued Style statuses
COMPANION_STYLES	Related Youth and Ladies Styles when available
MSRP	Manufactures Suggested Retail Price
MAP_PRICING	Minimum Advertised Pricing (MAP)
FRONT_MODEL_IMAGE_URL	Front Model Image - 1200x1800px jpg with model Back model image URL- 1200x1800px jpg with model
BACK_MODEL_IMAGE_URL	pack model make our- 150021000hz lhk mith model

FRONT_FLAT _IMAGE_URL	Front flat Image URL - 1200x1800px jpg without model
BACK_FLAT _IMAGE_URL	Back flat image URL - 1200x1800px jpg without model
PRODUCT_MEASUREMENT	PDF document listing flat product measurements.
PMS_COLOR	Pantone or PMS (Pantone Matching System) color
GTIN	Product GTIN # (Not all SanMar Products are assigned GTINS)
DECORATOR_SPEC_SHEET	Decoration Spec Sheet URL

## Sanmar\_EPDD.csv - Comma delimited quote encapsulated files

FIELD ELEMENT	DESCRIPTION
UNIQUE_KEY	Unique Identifier created as combination of INVENTORY_KEY & SIZE_INDEX

## **Third-party Files**

#### SanMar Shopify Data File

The Shopify file is produced daily with product information, suggested retail pricing, and inventory information.

#### PLEASE NOTE:

- SanMar does NOT upload Shopify data files to customer's web stores. Please refer to Shopify for more
  information about uploading product CSV files. <u>https://docs.shopify.com/manual/your-store/products/import-products</u>
- SanMar is unable to customize or alter this file to meet individual web stores needs and takes NO responsibility
  for how the data and images are presented within your web store theme. You may need to consult the theme
  creator, a theme developer or use Apps to achieve your desired presentation or functionality, such as
  <a href="https://apps.shopify.com/bulk-edit">https://apps.shopify.com/bulk-edit</a>, or many of the other App's currently available for Shopify web stores at
  <a href="https://apps.shopify.com/categories">https://apps.shopify.com/categories</a>. SanMar takes NO responsibility of ANY data or software problems that
  </a>

  may be experienced within Shopify's web stores, themes, or APPs that is used in conjunction with our data.

#### **Known Issues:**

- The Shopify system only allows 15MB uploads and our product data file is over 30MB in size. This makes it necessary for you to remove any unwanted products from the catalog and/or split the catalog into 2-3 separate data files.
- The Shopify Web Store system has a 100-variant maximum. Styles with many colors produce errors in the upload process and causes the entire style to fail and does not upload any data for that style. Error: Line# -Line#:Validation failed: Exceeded maximum number of variants allowed

Due to this system limitation, this file is intended to be used with a plugin to increase the number of variants allowed per handle, such as the product customizer (<u>https://apps.shopify.com/product-customizer</u>), or any plugin that will allow more than 100 variants per handle.\_Please consult Shopify for more information or suggestions at <u>https://docs.shopify.com/support.</u>

Some image links may not resolve to an image, which also produces errors and causes the entire style to fail. If this occurs, the style will not be uploaded.
 Error: Line# - LINE#: Validation failed: An error occurred while trying to download the image.
 We are working to correct this issue, but do not have a timeline for a resolution at this time

## SanMar Shopify File Field Names & Descriptions

#	Α	FIELD NAME	DESCRIPTION
1	А	Handle	Style Number
2	В	Title	Product Title
3	С	Body (HTML)	Product Description
4	D	Vendor	Brand
5	Е	Туре	Category
6	F	Tags	No Data is included
7	G	Published	Published on Web Store. Default Value 'True'
8	Н	Option1 Name	Default Value 'Color'
9	I.	Option1 Value	Product Color Name

40		Google Shopping / Custom Label 3	No Data is included
42	AP	0 11 07	No Data is included
43		Variant Image	Front Model Image for all Colors
44	AR	Variant Weight Unit	Default Value 'lb'

## **Daily Pricing Files Options**

The daily pricing files is produced by request and exported nightly after 2 AM PST to your SanMar FTP Outbound folder.

#### Daily Incentive Pricing File sanmar\_dpIncentive.csv

#### Daily CSV file with special program pricing

This Special Pricing file contains our entire catalog, but only displays your special pricing in the my\_price field or 0, if you do not have special pricing for that style.

#### Daily Pricing file Sanmar\_dp.csv

#### Daily complete CSV file with your lowest price available

Our Daily Pricing file produces a daily file with pricing for our entire catalog and displays your lowest available price in the my\_price field. Both of the Daily and Daily Delta pricing files produce the lowest available pricing in the my\_price field. The Daily Delta file only has only the unique\_key and my\_price fields and is incrementally updated daily.

#### Daily Delta Pricing file sanmar\_dpc.csv

#### Daily Partial CSV file with your lowest price available (Incremental daily changes)

Our Daily Delta Pricing file is a smaller partial file and displays your lowest available price in the my\_price field for only the product pricing that have changed since the day before. The first day that this pricing file is created it will produce my price for the entire product catalog, after which will only produce data for prices that have changed since the last day the file was exported.

#### Comma delimited Data

#	COLUMN	FIELD ELEMENT	DESCRIPTION
1	А	Inventory_Key	SanMar Product Identifier (combined with size index makes up for a unique product)
2	В	Size_Index	Product Size Identifier (combined with inventory makes up for a unique product)
3	С	Catalog_No	SanMar Catalog Number e.g. K420
4	D	Catalog_Color	Color of product
5	E	Size	Size of product
6	F	Piece_Weight	weight per piece in lbs.
7	G	Piece_Price	Piece Price (1-5 Pieces)
8	Н	Dozens_Price	No longer Available - Displays Piece Price
9	T	Case_Price	Case Price
10	J	Case_Size	Pieces in a Case
11	К	Each_sale_Price	Sale Price Per Piece (if on sale)
12	L	Dozens_sale_price	No longer Available - Displays Piece Price (if on sale)
13	М	Case_sale_price	Sale Price Per Case (if on sale)
14	Ν	Sale_start_datetime	Sale Start Date (if on sale)
15	0	Sale_end_datetime	Sale End Date (if on sale)
16	Р	Unique_key	Unique Product Identifier (INVENTORY_KEY+SIZE_INDEX combined)
17	Q	Discontinued_code	Discontinued Code S=SanMar or M=Mill - if product discontinued
18	R	My_price	Displays case pricing or sale price, if no TVBP pricing for an item

## **Daily Shipment Status File (Advance Ship Notification)**

The daily order status file is provided by request and provides daily order status and corresponding shipping information and is created nightly for all orders shipped that day. The file is then dropped into your FTP folder. The file contains line-item costs, associated charges, and the shipper tracking number.
